

Newly renovated gymnasium / auditorium available to rent

Newly renovated at a cost of nearly \$100,000, St. Paul's gymnasium and auditorium is now a bright, comfortable site for Basketball, Gymnastics, Volleyball and Badminton as well as exercise classes and other activities.

New lighting brings higher visibility to the state-of-the-art floor.

Acoustic panels on the upper walls provide enhanced audibility through a modern sound system.

Here is an ideal facility to present musical and stage shows, exercise classes, recreational activities and much more.

Two kitchens, folding tables and plenty of chairs are available for meetings or social functions.

The new floor provides a comfortable surface for athletic activities. The interlocked panels are cushioned by a shock absorbing under padding, providing comfort for athletes. Basketball, badminton and volleyball courts are outlined by different colour striping. The 'key' area is to the latest professional basketball dimensions.

New, high efficiency fluorescent lighting fixtures illuminate the gymnasium in sparkling brilliance. The ceiling and cross beams have been painted a light colour to enhance visibility. New air circulation fans in the ceiling are quiet and efficient.

Basketball practice is better than ever, thanks to new professional type glass backboards and nets.

For rental information or to arrange an inspection tour, please contact Barbara Mattson in the church office.
